All measurements are based on standard specification vehicles. The actual dimensions may differ from the stated values. A vehicle's actual payload (gross vehicle mass minus unladen weight) can only be determined by weighing the vehicle. Specifications are subject to change without notice. Fuel consumption tested in accordance with EC directive 1999/94/EC and based on NEDC procedure unless stated. Fuel consumption is measured on European specification cars and may vary depending on specification, road condition, tyres and driving behaviour. Overboost function works only under specific conditions. Please refer to Volkswagen NZ website for further information. Issued 2 March 2020.
